8) Biblical Community is of utmost importance at Church on Mill

We are considering transitions in how community is structured but are just in the pilot/experimental phase at this time. Help us discern God's will and the effectiveness of these ministries. Programs come and programs go but the biblical principles remain the same. Whatever method is utilized the ideals of gospel, community, and mission must simply never be neglected for the spread of the Kingdom, the development of this church body, and our own spiritual development.

Let's move forward with great anticipation as a church family.
